

# About Company

We founded Zonet in 2021 with the goal of lending a helping hand to other startups and business organizations in expanding their online operations. However, our product-based company has been in existence since 2014, and since then, we have been consistently striving to provide our clients with user-friendly IT sector solutions. In a very short period of time, our team has expanded its wings in technologies like HTML5, CSS3, Bootstrap, Javascript, ReactJS, Next.JS, NodeJS, ExpressJS, MySQL, MongoDB, Firebase, GitHub, Machine Learning, Data Scraping, Python, Chrome Extension builders and application developments including React native, android, and flutter.

# Mission & Vision

## Our Mission

We are working to stay ahead in the rapidly changing market. Our creative and hard-working team aims to provide IT services that can make our client's websites more effective. We desire to introduce our clients to new technologies and provide them with unlimited support to get strong recognition in the world.

## Our Vision

With a vision of creating extensive support for our clients, we are here to provide high-quality based services like mobile application development, cloud consulting, and web development. Keeping in mind the needs of our clients and the latest technologies, we pledge to deliver the best we can.
